Priebe, Scott Thursday, April 25, 2002 2:09 PM STIC-Biotech/ChemLib

Sequence search on 09/357,675

importance:

High

Please search the following against the commercial and interference databases using standard search parameters only.

SEQ ID NO: 1 (nucleotide) against the nucleic acid databases

SEQ ID NO: 21, 21 and 25 (amino acid) against both the nucleic acid and amino acid databases.

Print results on laser printer and send to Scott Priebe, 1632, 308-7310, 12B13 (office), 12E12 (mail box).

Thanks
